### **TORNADO PREPAREDNESS DAY – MARCH 14<sup>TH</sup>**

There is no such thing as a “tornado season”. Tornadoes can strike anywhere, at any time, sometimes with little or no warning. Environmental clues of a tornado include a dark, often greenish sky, large hail and a roar like a freight train. Remember to “go low and stay low”. This means that you should go to the lowest level of the structure you’re in and stay away from windows.

The VDEM (Virginia Department of Emergency Management) has a website that can assist you with any questions you may have. [www.vaemergency.com](http://www.vaemergency.com) has public service announcements, historical data, how to prepare for a tornado and other information.
